Quality Improvement

Innovation
Quality Improvement

[Diagram with concentric circles labeled Improvement Science, Engagement, Patient Involvement, Culture and Context. Steps 1 to 4 are: Diagnose, Plan and Test, Implement and Embed, Sustain and Spread.]
Collaborative Care & Support Planning

**Context**
1. Describes the group of people to be involved and how they will be identified
2. Describes how they will access care and support planning
3. Describes accountability

**Preparation**
- Preparation for the process
- Preparation by the person
- Preparation by the practitioner

**Conversation**
- The ideas and discussion at the centre of care and support planning
- (What matters to the person.)

**Record**
- The Care and Support Plan 'owned' by the person and shared access
- Information for use by the person
- Information for the use by the practitioner

**Making it Happen**
- Co-ordination and support for actions from a variety of personal, statutory and non-statutory sources signposted during the discussion and through using personal budget

**Review**
- Regular review and plan adjustment

Royal College of General Practitioners
Research Facilitation and Support

Yvonne Carter award for outstanding new researcher
Winners 2011-2015

2011
Professor Christian Mallen (GP)

2012
Doctor Kathrin Cresswell (PhD)

2013
Doctor Greg Irving (GP)

2014
Doctor Helen Atherton (PhD)

2015
Doctor Clare Taylor, MBE (GP)
