FUNDING OPPORTUNITIES IN EARLY DIAGNOSIS

ANNE HELME, SENIOR RESEARCH FUNDING MANAGER, CANCER RESEARCH UK
Population Research Committee – funding schemes

POPULATION RESEARCH PROGRAMME GRANTS
Programme grants provide long-term support for broad, multidisciplinary research, led by outstanding individuals with an established scientific track record.

POPULATION RESEARCH PROJECT GRANTS
Project grants provide support for high quality, hypothesis driven research with clear objectives which can be achieved in the time specified.

POPULATION RESEARCH POSTDOCTORAL FELLOWSHIPS
This Fellowship provides support for outstanding postdoctoral researchers to develop their careers in the field of population research.

Population Research Committee – new structure

- **Population Research Committee**
  - Oversees whole portfolio and takes final funding decisions

- **Early Diagnosis Panel [NAEDI]**
  - Expert review panels make funding recommendations to PRC
  - Receives reports from NAEDI innovation workshops

- **Prevention Panel**
  - Receives reports from prevention innovation workshops

- **Epidemiology Panel**

- **Fellowships Panel**
  - Interviews the shortlisted Fellowship candidates
NAEDI innovation seed-funding grants *new*

- ‘Sandpit’ workshops
- Up to £20k for 12-month feasibility studies
Early Diagnosis Advisory Group

EARLY DIAGNOSIS ADVISORY GROUP (EDAG) PROJECT GRANTS

Project grants provide support for short term (less than 12 months) cancer early diagnosis research that significantly adds to the evidence base and has the potential to immediately impact on policy and practice for patient benefit. EDAG operates a rolling funding scheme and applicants can send abstracts for consideration for funding all year round.
FOR MORE INFORMATION....
