ABOUT STAND UP TO CANCER
Stand Up To Cancer (SU2C) was created through an unprecedented collaboration uniting the major television networks, entertainment industry executives and celebrities, and prominent leaders in cancer research and patient advocacy. SU2C believes that the last thirty years have brought about a revolution in our understanding of the origins and causes of cancer. Today’s cancer scientists are now on the verge of translating these scientific discoveries into new, life-saving strategies to prevent, diagnose, or treat cancer. SU2C embarked on a series of projects to raise significant dollars to fund cancer research that will positively impact patient care and prevention. These projects included four internationally televised events, which aired on September 5, 2008, September 10, 2010, September 7, 2012 and most recently, September 5, 2014 that was aired simultaneously on several major networks. The funds raised through this and other SU2C efforts are supporting translational cancer research Dream Teams, Translational Teams, and the SU2C Innovative Research Grants.

As the scientific partner in the SU2C initiative, the American Association for Cancer Research (AACR) provides scientific oversight and conducts expert peer review and grants administration for SU2C. The AACR is highly regarded as the scientific brain trust in all subfields of cancer research and for its peer review process that is fast, flexible, rigorous, and transparent.

ABOUT CANCER RESEARCH UK
Cancer Research UK’s vision, to “bring forward the day when all cancers are cured”, is a statement of what the Charity aspires to, why it exists, and describes the impact the Charity would like to have on society. Cancer Research UK has four main purposes, each of which describes what they will do to achieve our vision:

• To carry out world-class research to improve our understanding of cancer and find out how to prevent, diagnose and treat different kinds of cancer;
• To ensure that our findings are used to improve the lives of all cancer patients;
• To help people to understand cancer, the progress we are making and the choices each person can make;
• To work in partnership with others to achieve the greatest impact in the global fight against cancer.

ABOUT THE LUSTGARTEN FOUNDATION
The Lustgarten Foundation is America’s largest private foundation dedicated to funding pancreatic cancer research. Based in Bethpage, New York, the Foundation supports research to find a cure for pancreatic cancer, facilitates dialogue within the medical and scientific community, and educates the public about the disease through awareness campaigns and fundraising events. The Foundation has provided millions of research dollars and assembled the best scientific minds with the hope that one day, a cure can be found. And because Cablevision Systems Corporation, a leading media and telecommunications company, underwrites all of The Lustgarten Foundation’s administrative costs, 100 percent of every dollar donated to the Foundation goes directly to pancreatic cancer research. Learn more at Lustgarten.org

PROGRAM MISSION STATEMENT
The Stand Up to Cancer-Cancer Research UK-Lustgarten Foundation Pancreatic Cancer Dream Team Translational Research Grant represents a new, focused effort to implement advances in pancreatic
cancer research as rapidly as possible through the creation of a collaborative, translational, cancer research "Dream Team." The most talented and promising researchers across institutions will be assembled into a Dream Team, forming an optimal configuration of expertise needed to solve key problems in pancreatic cancer and positively impact patients in the near future. This Dream Team will span multiple disciplines and utilize the new tools of modern biology to attack research questions in a coordinated way. Mechanisms to foster collaborations within and among the Dream Teams will be employed – an approach that promotes the sharing of information and a goal-oriented focus on measurable milestones of progress. SU2C, Cancer Research UK and the Lustgarten Foundation believe that this unique Dream Team model will advance scientific research in the interests of both today's cancer patients and those who may develop cancer in the future.

The grant will provide up to $12 million in funding over 3-year grant term, depending upon project requirements, and will be contingent on the SU2C- Cancer Research UK-Lustgarten Foundation Joint Scientific Advisory Committee (JSAC) finding that the funds are justified and that milestones and objectives have been appropriately selected and are being satisfactorily pursued and achieved.

APPLICATION DEADLINE
Proposals for Stand Up to Cancer-Cancer Research UK-Lustgarten Foundation Pancreatic Cancer Dream Team Translational Research Grant research projects must be submitted by August 24, 2015. See page 11 for further Application Instructions.

RESEARCH PROJECT CRITERIA
This grant is for a translational cancer research project that addresses critical problems in pancreatic cancer patient care. The project must include interventions in prevention, diagnosis, or treatment of pancreatic cancer and deliver near-term patient benefit through investigation by a multidisciplinary, multi-institutional, transatlantic, synergistic Dream Team of expert investigators. The project must be designed to accelerate therapeutic application to the clinic (i.e., lead to patient involvement within 2-3 years from the beginning of the grant). Proposals for Dream Team research projects must present plans indicating how the work will be translated into the clinic. The ideas should be based on perceived opportunities for success as well as high-priority areas with a critical need for rapid progress beyond current medical care. At least on Dream Team Member (Leader, Co-leader, or Principal) must be from a U.K. Institution and at least 25% of the grant must be used to support research within the United Kingdom.

DREAM TEAM MEMBER ELIGIBILITY CRITERIA
To maximize creativity, innovation, and collaboration, the Dream Team must include laboratory and clinical researchers, senior and/or young investigators, and senior scientists who have not worked together in the past.

Definitions

Dream Team Leader (DTL). The Dream Team Leader is the person responsible for the scientific and technical direction of the proposed research project, contractual and financial obligations, and other organizational assurances/certifications. The DTL must ensure that the Team complies with the terms and conditions of the award, and will be the primary contact person for AACR’s Scientific Review and Grants Administration (SRGA) staff.
Dream Team Co-leader. A Dream Team Co-leader will be designated by the Dream Team Leader to assist in directing the scientific and technical work of the Team. A Co-leader will serve as an alternate contact person for AACR’s SRGA staff.

Dream Team Principals (DTPs). Dream Team Principals are senior investigators who will lead a component(s)/subproject(s) of the Dream Team research project.

Advocates. Advocates will bring the perspectives of those affected by cancer (e.g., patients, survivors, caregivers) to the work of Dream Team. They will enable the Dream Team scientists to see their research through the eyes of the target audience and integrate these perspectives into the direction of the Dream Team research. Advocate members do not represent the viewpoints or issues of any advocacy organization nor their individual personal issues.

Investigators. Senior investigators, other than the DTLs and DTPs, who are employed at the DTL’s or DTP’s institutions and contribute substantively to the Dream Team research project, may be included as members of the Dream Team.

Young Investigators. Junior faculty (i.e. independent investigators who have completed their training no more than 5 years prior to the start of the grant term), postdoctoral fellows, clinical research fellows, or any other researchers-in-training who are working under the direction of a scientific mentor (i.e., a DTL, Co-leader, DTP, or Investigator) may be included as members of the Dream Team.

Collaborators. These are senior investigators who are employees or subcontractors of a government institution or for-profit industry, and who could make valuable contributions to the Dream Team research project.

Each Team will consist of a Dream Team Leader, a Dream Team Co-leader, no more than four additional Dream Team Principals, and at least two Advocates.

The Dream Team Leader, Co-leader, and Principals must have acquired a doctoral or medical degree, and must be independent investigators affiliated with an academic, medical, or research institution. There are no citizenship or residency status restrictions.

The Dream Team Leader and Co-leader are expected to each dedicate at least 20% (or 40% combined) of their time and effort to the Dream Team research project. Dream Team Principals must each dedicate at least 10% of their time and effort to the Dream Team research project.

At least one member, the Leader, Co-leader or a Principal, must be from an institution within the United Kingdom.

No Dream Team will have more than one Key Personnel (Dream Team Leader, Co-leader or Principal) from any given institution at the time of their initial appointment on the Team. No more than two Leaders or Principals may be from affiliated institutions. It is expected that additional Investigators from the Dream Team Leaders’ or Principals’ institutions may be involved in the Dream Team research project in some other capacity, and there is no limit to the number of Investigators from each of these institutions that may contribute to the Dream Team project.

Employees or subcontractors of for-profit industry are not eligible to serve as a Dream Team Leader or Principal, but their participation as Collaborators is encouraged, where appropriate, to foster the
development of novel diagnostic and treatment strategies. No grant funds may be directed to Collaborators working within a US government institution or for-profit industry. Confidentiality and intellectual property issues must be negotiated with Collaborators prior to their participation in a Dream Team research project.

Young Investigators, including junior faculty, postdoctoral fellows, clinical research fellows, or any other researchers working under the direction of a scientific mentor, are not eligible to serve as a Dream Team Leader or Principal, but their participation in the Dream Team research projects is encouraged.

There are no citizenship or residency status restrictions. Neither members of the SU2C-Cancer Research UK-Lustgarten Foundation Joint Scientific Advisory Committee (JSAC) nor members of their individual laboratories are eligible for funding as part of the Stand Up to Cancer-Cancer Research UK-Lustgarten Foundation Pancreatic Cancer Dream Team Translational Research Grant.

A researcher may not be funded on more than one SU2C-sponsored Dream Team grant. No more than fifty percent of the Principals (including Leader and Co-leader) from a previous or current Dream Team may apply as a group on a new Dream Team proposal.

Candidates with a question about the eligibility requirements are encouraged to contact the AACR’s SRGA at su2c@aacr.org prior to submitting the proposal.

EVALUATION OF PROPOSALS
The JSAC will review the proposals for the Stand Up to Cancer-Cancer Research UK-Lustgarten Foundation Pancreatic Cancer Dream Team Translational Research Grant. The Committee consists of highly accomplished senior laboratory researchers and physician-scientists who are respected internationally for their own accomplishments in cancer research and as leaders in the field, as well as two advocates.

The JSAC will consider the following criteria when evaluating the proposals:

- Scientific merit of the proposed research project and translational nature of the research, i.e., plan for translating the work from the laboratory to the clinic to deliver near-term patient benefit (lead to patient involvement within 24-36 months);
- Significance of the proposed research, i.e., whether it addresses a critical need for rapid progress beyond current medical care for pancreatic cancer;
- Novelty of the hypothesis or methodology;
- Degree to which the studies will have a positive therapeutic impact on the detection, prevention, or treatment of pancreatic cancer;
- Dream Team Leader’s vision, leadership qualities, willingness to collaborate, demonstrated ability to bring together and lead an interdisciplinary team of experts to a successful conclusion, expertise in the field, and commitment to translational cancer research with a clear emphasis on near-term clinical application;
- Willingness of the Dream Team Leader, Co-leader and Principals to collaborate, their research credentials, and their unique contributions to the Dream Team research project;
• A clear commitment by the Dream Team that all data resulting from their work will be available to the scientific community at large at the earliest opportunity;

• Likelihood that the research project will achieve its stated goals given the budget requested, institutional environments, and other resources available;

• Whether the studies are designed to capitalize upon the unique populations and environments, specialized expertise, new concepts and perspectives, innovative methodologies, and/or emerging technologies that were available due to the multi-institutional collaboration; and

• Whether adequate institutional and/or financial support exists to sustain the research project.

GRANT TERMS

Changes to application. Applicants are not allowed to change the project nor the Dream Team members proposed in the LOI. If changes are necessary, prior written approval from the AACR is required.

Contracts. A Grant Agreement will be executed between the AACR and the Dream Team Leader’s Institution. The Dream Team Leader’s Institution typically serves as the administrator of the grant funds and hold responsibility for the disbursement of the funds, management of the budget, and provision of progress reports. It is expected that the institution of the Dream Team Leader will enter into subcontracts with the institutions of the Dream Team Co-leader, Principals, Investigators, and Collaborators, and assurances that these contractual agreements have been executed will be required prior to funding. All contracts with industry are encouraged to use the model contract language for clinical trials of potential new cancer treatments that has been made available by the CEO Roundtable on Cancer in partnership with the NCI to comply with the requirement of the SU2C founders to expedite the negotiation process.

Please visit http://www.cancer.gov/aboutnci/organization/ccct/reports for further details.

Commencement. The Dream Team Leader must agree to commence the Dream Team research project described in the proposal on or about the time the first grant payment is received by the Dream Team Leader’s Institution. If the Dream Team Leader is unable to commence the Dream Team research project at that time, the AACR’s SRGA should be immediately notified. The AACR retains the right to terminate the grant if the research project is not commenced in a timely manner.

Budget. Dream Teams may apply for total support of up to $12 million over a 3-year term. A detailed budget for the overall Dream Team project will be required, along with separate budgets for expenses related to the research components conducted by each of the Dream Team Leaders and Principals. Budget expenses must be justified. All funding is contingent upon milestones and objectives being appropriately selected and satisfactorily pursued and achieved, as determined by the AACR and the JSAC.

Use of Funds.

At least 25% of the grant must be used to support research within the United Kingdom.

Within the United States:
Grant funds may be used for direct research expenses attributable to the proposed research, which may include:
• A percentage of the salary and benefits expenses (limited to 20% of the total budget) of senior investigators on the Dream Team (i.e., Leaders, Principals and/or Investigators within each of the collaborating institutions);
• A percentage of salary and benefits expenses of the Young Investigators on the Team;
• Salary and benefits expenses for research assistants or technicians;
• Equipment, supplies, and other laboratory or clinical expenses;
• Travel expenses relevant to the Dream Team research project, including travel to the institutions of the Dream Team Leaders/Principals and travel to meetings with the Joint Scientific Advisory Committee, as well as to the annual SU2C Scientific Summit; and
• Expenses (limited to a total of $20,000/year) related to publication page charges and/or the presentation of research data at scientific meetings or through other means that will contribute to the dissemination of the scientific knowledge derived from the proposed research.

The funds may not be used for salary or benefits of any Collaborators from a government institution or for-profit industry, or for any research expenses related to the Dream Team project that are incurred by these individuals. Tuition and professional membership dues are not allowable expenses.

Any indirect costs charged by the institutions will be negotiated to a minimum, but in no event will there be permitted a charge of more than 10% of the total budget.

 Within the United Kingdom:
Grant funds may only be used for the direct costs of research. Indirect or directly allocated costs (including salaries of Leaders, Principals and Investigators) will not be supported.

Payments. The Dream Team Leader and the Institution typically serve as the administrator of the grant funds and hold responsibility for the disbursement of the funds, management of the budget, and provision of progress reports. Quarterly installment payments will initiate within 3 months after the Grant Agreement has been signed and no earlier than the start date agreed upon by the Dream Team Leader and AACR’s SRGA. Assurances that all contractual agreements have been negotiated and signed, as well as organizational assurances/certifications, will be required prior to receiving payments. The Dream Team Leader and the Institution acknowledge and accept that subsequent funding is contingent upon the timely submission of progress and financial reports that are reviewed and found to be satisfactory by the AACR and the JSAC.

Reporting Requirements. The semi-annual Progress Reports are a tool to ensure that the Dream Team is meeting its pre-defined Milestones and Deliverables, and is on track for achieving the ambitious goals that this grant requires. Progress reports are to be submitted twice a year (June 15th and December 15th) and are intended to highlight the accomplishments of that specific time period. Progress Reports will be reviewed by AACR, SU2C, Cancer Research UK, and the Lustgarten Foundation, and a Review Team drawn from the Joint Scientific Advisory Committee (JSAC).

AACR may withhold release of any future Grant Funds until the reports have been filed and approved. All funding is contingent upon Milestones and Deliverables being satisfactorily pursued and achieved, as determined by the AACR, JSAC, and funders. If the accomplishments have not met the standards of the JSAC, the Committee will provide detailed information on specific areas of deficiency and its recommendations. All deficiencies will need to be addressed by the Dream Team. Failure to address
deficiencies, meet grant requirements, or achieve the pre-defined Milestones and Deliverables may result in discontinuation of the grant.

Dream Teams must meet three times a year, either in person, by teleconference, or videoconference, to review progress and, if necessary, adjust research plans. These meetings will include all key personnel involved in the Dream Team project as well as staff from the AACR’s SRGA as necessary. In addition, Dream Team Leaders are required to meet with the JSAC and all other Team members twice a year, following the submission of Progress Reports, to thoroughly discuss the Team’s progress. One of these meetings will take place at the annual SU2C Scientific Summit held in late January. These events will provide opportunities for Dream Team Leaders to engage in integrated team collaboration. Dream Team Leaders may also be requested to meet individually with the JSAC.

A final written progress and financial report shall be submitted no later than sixty (60) days after the ending date of the grant term. Detailed instructions on completion of a satisfactory progress and financial report will be provided by the AACR’s SRGA prior to the report due date.

The AACR, at its discretion, may provide copies of interim and final progress reports to the Funders that have provided financial support for the grant, and also may use all or portions of the report for public dissemination, such as within an AACR, SU2C, Cancer Research UK or the Lustgarten Foundation newsletter, on the AACR, SU2C, Cancer Research UK, or the Lustgarten Foundation websites, or in other similar manners.

**Publications and Acknowledgment of Support.** Any publications resulting from research funded in whole or in part by the grant must be cited as follows: “Research supported by a Stand Up to Cancer-Cancer Research UK-Lustgarten Foundation Pancreatic Cancer Dream Team Translational Research Grant, Grant Number SU2C-AACR-DTXX-XX. Stand Up To Cancer is a program of the Entertainment Industry Foundation administered by the American Association for Cancer Research.” In addition, whether during the term of the grant or afterwards, the Dream Team Members shall include this citation on any publicity or communications (external or internal) resulting from the grant, including but not limited to press releases, media reports, interviews, conference talks, and poster presentations of data. Copies of such publications must be forwarded to the AACR’s SRGA.

**Intellectual Property.**

Intellectual property arising out of U.S.-based research projects funded through this grant ("Research IP") may be subject to a revenue share, not to exceed 10%, if the Research IP is developed commercially. These revenues would be added to the Transatlantic Fund, a joint fund of Stand Up To Cancer (a program of the Entertainment Industry Foundation) and Cancer Research UK, and used to fund additional translational cancer research projects. A grantee will be notified upon the award of the grant if revenue share will be pursued, and if so, in what amount.

The Dream Team Leader(s), and the Host Institution(s) shall notify the AACR’s SRGA of any discovery that is or may be patentable or otherwise protectable under applicable law and that is discovered in the course of the research funded through this grant. The Dream Team Leader(s) and Host Institution(s) shall be responsible for obtaining patent or other legal protection for each Invention that the Dream Team Leader(s) or the Host Institutions believes to have commercial potential, and for paying all costs associated with obtaining such protection. They are solely responsible for all commercial exploitation of any Invention, and the AACR and SU2C, will have no responsibility therefor, notwithstanding any
revenue share negotiated on behalf of Cancer Research UK. The Dream Team Leader(s) and the U.S. and/or U.K. Host Institution shall notify the AACR’s SRGA of the granting of each patent or other legal protection and of all commercial exploitation of any Invention. The AACR will notify Cancer Research UK.

Awards made under the SU2C-Cancer Research UK scheme to U.K. institutions will be subject to the standard CRUK grant terms and conditions (http://www.cancerresearchuk.org/science/funding/terms-conditions/grant-conditions/). If a U.K. based Host Institution has in place a Technology Transfer Agreement (TTA) with Cancer Research Technology Ltd (CRT), which lays out the responsibilities of the Institution and CRT with respect to the management, commercialization and revenue sharing in relation to Cancer Research UK funded research, intellectual property arising from the SU2C-Cancer Research UK scheme at the U.K. Host Institution will be managed under the respective TTA. In line with the SU2C position, CRT/CRUK intend to recycle some of the net commercialization income received by CRT from the commercialization of any U.K. derived Research IP under the scheme back into the Transatlantic Fund. The recycled share will be calculated as 20% of the net commercialization income retained by CRT (where CRT is managing the commercialization) or in cases where the Host Institution manages the commercialization, 20% of the net commercialization income received by CRT.

Confidentiality and intellectual property issues must be negotiated with Collaborators prior to their participation in the research project.

**Insurance.** Insurance shall be maintained by the Dream Team Members and Institutions for professional liability and comprehensive general liability insurance, on an “occurrence” basis, against claims for “personal injury” liability, including bodily injury, death or property damage liability. Such insurance shall be primary and noncontributory with any other insurance carried by the AACR, SU2C, Cancer Research UK, or the Lustgarten Foundation and shall provide appropriate waivers of subrogation against the AACR, SU2C, Cancer Research UK, and the Lustgarten Foundation and its directors, committee members, employees, affiliates and agents.

**Notification of Changes.** It is the responsibility of the Dream Team Leader to notify the AACR’s SRGA immediately of any changes in the composition of the Dream Team, and changes in the position or institution of any of the Dream Team Members. The AACR may not accept proposals to change the research project from that described in the application, and may terminate the grant.

**Organizational Assurances.** It is the responsibility of the Dream Team Leader and Institution to ensure that organizational assurances/certifications from all Dream Team Member Institutions are obtained.

**U.S. Institutions:**
For research involving human subjects, the appropriate Dream Team Member(s) and U.S. Institution(s) shall certify that:

a. The proposed research project has been reviewed and approved in writing by an accredited university or medical school Institutional Review Board (IRB) constituted in accordance with current regulations promulgated by the United States Department of Health and Human Services (HHS) and approved by HHS, or by the Association for the Accreditation of Human Research Protection Programs (in the absence of an HHS-approved university or medical school IRB).
b. The Dream Team Member(s) shall secure a legally acceptable informed consent from all human subjects taking part in any research funded in whole or in part by the AACR in accordance with and to the extent required by current regulations promulgated by the United States Department of Health and Human Services and approved by HHS. IRB certification should be documented by submitting a copy of the institutional letter of approval, which identifies the Dream Team Leader, Dream Team Member(s) responsible for the relevant project component, Dream Team research project title, the AACR as the funding agency and date of approval, and is signed by the IRB Chair or equivalent responsible institutional official. Prior IRB certification for another project cannot be substituted, but can be officially amended to include the proposed project. Funds will NOT be released unless and until proof of all IRB certifications is received by the AACR.

For research involving animals, the Institution(s) shall ensure compliance with applicable chapters of the Public Health Service Animal Welfare Policy, the NIH Manual for Grants and Contracts, and any and all requirements of the Institution concerning animal welfare. Certification by the Institution Animal Care and Use Committee (IACUC) or equivalent shall be documented by submitting a copy of the institutional letter of approval, which identifies the Dream Team Leader, Dream Team Member(s) responsible for the project, Dream Team research project title, the AACR as the funding agency, date of approval, and is signed by the IACUC Chair or equivalent Institution official. Prior IACUC certification for another project cannot be substituted, but can be officially amended to include the proposed project.

U.K. Institutions:
For research involving human subjects, the appropriate Dream Team Member(s) and U.K. Institution(s) shall certify that:

In all studies involving patients, patient tissue or patient information, the necessary ethics approval has been obtained before any research is undertaken. It is the responsibility of the Applicant, and the U.K. Host Institution to ensure compliance with all legal requirements and ethics approval. For studies involving patients a copy of the letter of approval must be provided if the application is approved for funding.

For research involving animals, the U.K. Institution will ensure that a Local Animal Research Ethics Committee has approved the research proposals involving the use of animals. It is the responsibility of the host institution to ensure that all ethical and legal requirements and Home Office regulations are met. The Fellow and U.K. Mentor must ensure all research involving animals is fully compliant with current Home Office legislation and adhere to the Guidelines for the Welfare and Use of Animals in Cancer Research as set out by Workman et al (2010) (British Journal of Cancer 102, 1555-1577). The Grant must not be used for any research on animals which has not been approved and set out in the grant application. Due consideration must be given to the refinement, reduction or replacement of the animals (www.nc3rs.org.uk).

Non-U.S. or U.K. Institutions:
Dream Team Members at non-U.S. institutions must adhere to ethical standards for the protection of human and animal subjects that are at least equivalent to U.S. standards, and to the legal requirements of the country of origin. Certification of ethical standards review and approval should be documented by submitting a letter, which cites all relevant approval and license numbers and dates required by the country of origin. In the absence of an official ethical review board (or equivalent) or legal requirements,
the Dream Team Member(s) must agree in writing to adhere at minimum to the World Medical Association Declaration of Helsinki: Ethical Principles for Medical Research Involving Human Subjects.

APPLICATION INSTRUCTIONS

The AACR requires applicants to submit an online application. Completed online applications should be by 12:00 p.m. (noon) United States Eastern Time on August 24, 2015, using the proposalCENTRAL website at https://proposalcentral.altum.com. An e-mail will be sent to confirm your online submission.

The materials to be submitted, in the order listed and using the templates provided, are:

- Signature Pages, with contact information and the original signatures of the Dream Team Leader, Co-leader, Principals, Advocates, and Institutional Signing Officials. *Signatures must be in blue ink and submitted in color.*
- Lay Abstract
- Research Project Proposal
- Budget
- Budget Justification
- Biographical Information of Dream Team Leaders and Principals
- Letters from Investigators and Collaborators
- Project Milestones
- Appendices, if applicable

GETTING STARTED IN proposalCENTRAL

If you are a new user of proposalCENTRAL, follow the “REGISTER” link and complete the registration process. After you register, complete your Professional Profile (green tab, second from the left) before starting an application.

If you are already registered with proposalCENTRAL, access the site and log in with your Username and Password. If you have forgotten your password, click on the “Forgot your password?” link. Supply your User ID or e-mail address in the space provided; your password will be sent to you by e-mail.

To start an application, select the “Grant Opportunities” tab (gray tab furthest to the right). A list of applications will be displayed. Find the “SU2C-Cancer Research UK-Lustgarten Foundation Pancreatic Cancer Dream Team” and click the “Apply Now” link (second to last column) to create your application.

To access your application, select the “Manage Proposals” tab (blue tab first on the left). Below the “Manage Proposals” tab are several links; select the “In Progress” link. A list of all applications for which you have applied through proposalCENTRAL will appear. Find the program titled, “SU2C-Cancer Research UK-Lustgarten Foundation Pancreatic Cancer Dream Team”. Then in the “Edit” column (second column from the left), select the “Edit” link to access your application.

Complete all fields in the application and all templates that are provided. Upload all requested documents in portable document format (PDF). See the proposalCENTRAL FAQ section, https://proposalcentral.altum.com/FAQ/FrequentlyAskedQuestions.asp, for more information.
If you have any difficulties registering, logging in, or creating your application, contact proposalCENTRAL Customer Support immediately:

Phone: 1-800-875-2562 or (703) 964-5840  E-mail: pcsupport@altum.com

FULL APPLICATION PROCEDURE

The following information is required to submit a complete application. Numbers correspond to the application sections found on the left side of the proposalCENTRAL website.

1. **TITLE PAGE.** Your title has been brought forward from the approved Letter of Intent (LOI). (Do not make any changes to the title or your application may be disqualified from funding consideration.)

2. **DOWNLOAD TEMPLATES & INSTRUCTIONS.** The Program Guidelines, and Full Application Instructions, and all templates can be downloaded from this page. You must download the following documents: Signature Pages Template, Lay Abstract Template, Research Project Proposal Template, Budget Template, Budget Justification Template, Biographical Information Template, and the Project Milestones Template to your computer.
   - Click the ‘Download’ link to save templates to your computer.
   - Complete the templates and convert it to PDF format. You do not need to be connected to the internet or proposalCENTRAL while working on the templates.
   - Upload the completed template files to your online application in the section for attaching files.

See Section 9 for instructions on how to complete and upload the templates. This application also requires additional attachments for which a template is not provided (Letter of Institutional Commitment and Appendices [if applicable]).

3. **ENABLE OTHER USERS TO ACCESS THIS PROPOSAL.** Optional.

4. **DREAM TEAM LEADER.** Enter contact information directly into proposalCENTRAL system. Indicate the percent effort on this project.

5. **INSTITUTION & CONTACTS.** Enter information regarding the lead Institution and signing official directly into proposalCENTRAL system.

6. **KEY PERSONS (DREAM TEAM MEMBERS):** Enter directly into proposalCENTRAL system Key Personnel (Leader, Co-leader, Principals, and Advocates) as well as any other Dream Team members. A Dream Team Co-leader should be designated by the Dream Team Leader to assist in directing the scientific and technical work of the Team. A Co-leader will serve as an alternate contact person for AARC’s SRGA staff. Dream Team Principals are senior investigators who will lead a component(s)/subproject(s) of the Dream Team research project. Advocates will bring the perspectives of those affected by cancer (e.g., patients, survivors, caregivers) to the work of Dream Team.

7. **BUDGET.** Dream Teams may apply for total support of up to $12 million over a 3-year term. Provide budgets for the overall Dream Team project, as well as separate budgets for expenses related to the research components/subprojects conducted by each of the Dream Team Leader, Co-leader and Principal. Indicate expenses directly attributable to the proposed research. These expenses include...
salary, equipment and supplies, travel related to the research project, and expenses related to the dissemination of knowledge derived from the research. Tuition and professional membership dues are not allowable expenses. Any indirect costs charged by the institutions will be negotiated to a minimum, but in no event will there be permitted a charge of more than 10% of the budget. See “Grant Terms, Use of Funds” on page 6 for further details.

8. ORGANIZATIONAL ASSURANCES. The assurances/certifications are made and verified by the signature of the Institutional official signing the application. The AACR does not require the supporting letters with your application. However, if awarded, IRB and/or IACUC approval (if applicable) must be submitted in writing to the AACR’s SRGA.

9. UPLOAD ATTACHMENTS. Prepare and upload the following documents into your application in portable document format (PDF). Details are provided below.

I. Signature Pages and Contact Information
   *All signatures must be in blue ink and submitted in color electronically.*
   A. Title of Research Project. The title should not exceed 75 characters in length (including spaces). Do not use abbreviations unless absolutely necessary.
   B. Dream Team Leader (DTL). The Dream Team Leader is the person responsible for the scientific and technical direction of the proposed research project, contractual and financial obligations, and other organizational assurances/certifications. The DTL must ensure that the Team complies with the terms and conditions of the award, and will be the primary contact person for AACR’s SRGA staff.
   C. Dream Team Co-leader. A Dream Team Co-leader should be designated by the Dream Team Leader to assist in directing the scientific and technical work of the Team. A Co-leader will assist in directing the scientific and technical work of the Team and will serve as an alternate contact person for AACR’s SRGA staff.
   D. Lead Institution. The Lead Institution is the organization at which the Dream Team Leader is employed, and it will be legally and financially responsible for the conduct of activities supported by the grant.
   E. Co-leader’s Institution. Provide the name and mailing address for the organization at which the Dream Team Co-leader is employed.
   F. Administrative Official at Lead Institution. Provide the name of and contact information for the Lead Institution administrative official to be notified if an award is made.
   G. Official Signing for Lead Institution. Provide the name of and contact information for the official signing for the Lead Institution.
   H. Lead Institution Certification. In signing the application, the Authorized Lead Institution Representative certifies that the Lead Institution will comply with all applicable policies, assurances and/or certifications referenced in the application. The Lead Institution is responsible for the accuracy, validity, and conformity with the most current institutional guidelines of all the administrative, fiscal, and scientific information in the application. The signer further certifies that the Lead Institution will be accountable both for the appropriate use of any funds awarded and for the performance of the grant-supported project or activities resulting from this application. The Lead Institution may be liable for
the reimbursement of funds associated with any inappropriate or fraudulent conduct of the project activity.

NOTE: It is recommended that the collaborating Institutions be provided with the program guidelines as soon as possible. Certification of the Dream Team application by the Co-leader's, and each of the Dream Team Principal's Institutions (i.e., signatures from the Institutions’ Representatives) will be required at grant submission.

I. Dream Team Principals and Advocates. Do not enter information for Investigators, Collaborators, or fellows or research assistants.

J. Dream Team Member Certification. Original signatures, in blue ink, of the Dream Team Leader(s), Principals and Advocates are required.

K. Dream Team Co-leader’s and Principals’ Institutions Certification. In signing the application, the Authorized Dream Team Co-leader or Principal Institutional Representative certifies that the Institution will comply with all applicable policies, assurances and/or certifications referenced in the application. The Institution is responsible for the accuracy, validity, and conformity with the most current institutional guidelines of all the administrative, fiscal, and scientific information in the application. The signer further certifies that the Institution will be accountable both for the appropriate use of any funds awarded and for the performance of the grant-supported project or activities resulting from this application.

II. Lay Abstract of Research Proposal. This abstract, limited to 3,000 characters, should provide a clear, concise overview of the proposed research. Include language suitable for a non-scientific audience. Describe relevance of the proposed work to the goals of Stand Up To Cancer, Cancer Research UK, and the Lustgarten Foundation. A scientific abstract must be included within the research project proposal.

III. Research Project Proposal. Applicants must adhere to the following formatting guidelines in completing this section.

- Must use 12 point Times New Roman for the text, and no smaller than 9 point type for figures, legends, and tables.
- Single-spaced text is acceptable, and space between paragraphs is recommended.
- The page margins must be no less than 0.75 inches on each side.
- Pages must be numbered consecutively; in the Proposal Narrative, do not use section designations such as "3A" or "3B."
- Suggested tips and techniques for images in documents:
  - Reduce the file size of documents with images by “inserting” the image (as opposed to “cutting” and “pasting”). Save graphical images as JPEG or GIF files. Insert the image into the document by selecting “Insert – Picture – From File” from the MS Word menu.
  - Insert only GIF or JPEG graphic files as images in your Word document. Other graphical file formats are either very large or difficult to manipulate in the document.
  - Do not insert Quick Time or TIFF objects into your document.
Present the required information, using the template, in this order:

A. **Contents page.** Complete the Table of Contents by indicating the appropriate page numbers for each section; do not exceed one page.

B. **Title of Research Project.** The title should not exceed 75 characters in length (including spaces). Do not use abbreviations unless absolutely necessary.

C. **Scientific Abstract.** Limited to 3,000 characters (including spaces). Should provide a clear, concise description of the proposed work, including the background, objective or hypothesis and its supporting rationale; specific aims of the study; study design; and clinical impact and significance of the proposed work.

D. **Proposal Narrative.** Limited to twenty (20) pages, including figures and tables. References and appendices do not count against this page limit. Describe in-depth the proposed research project, including:
   1. **Background and Rationale**
   2. **Specific Aims**
   3. **Research Design and Methods**
   4. **Projected Timeline and Milestones.** Provide a sequence or timetable for the project and identify the milestones by which the success of the proposed research could be measured.
   5. **Significance and Therapeutic Impact on the Detection, Prevention, or Treatment of Pancreatic Cancer.** If the specific aims are achieved, state how clinical practice will be advanced.

E. **Collaboration/Dream Team Members.** Limited to six (6) pages. Include a narrative describing the value-added activities of the team/unique benefits afforded by the collaboration and the plan for coordinating the research across the multiple performance sites. List all members of the Team, including: Dream Team Leader, Co-leader, Principals, Advocates, Investigators, Collaborators, fellows, research assistants, and support staff. Provide professional titles and affiliations and a description of each member’s substantive and quantifiable contribution to the research project.

F. **Facilities.** Limited to three (3) pages. Please provide a description of the research facilities, equipment and other resources available for this project.

G. **References.** Limited to three (3) pages of relevant publications.
H. **Other Support.** Provide details of any current funding or funding applications in progress to support any component/subproject of the proposed Dream Team research project.

IV. **Budget.** Dream Teams may apply for total support of up to $12 million over a 3-year term. Provide budgets for the overall Dream Team project, as well as separate budgets for expenses related to the research components/subprojects conducted by each Dream Team Leader, Co-leader and Principal. Indicate expenses directly attributable to the proposed research. These expenses include salary, equipment and supplies, travel related to the research project, and expenses related to the dissemination of knowledge derived from the research. Tuition and professional membership dues are not allowable expenses. Any indirect costs charged by the institutions will be negotiated to a minimum, but in no event will there be permitted a charge of more than 10% of the budget. See “Grant Terms, Use of Funds” on page 6 for further details.

V. **Budget Justification.** Limited to three (3) pages per institution. Detailed justification of the separate budget requests for expenses related to the research components/subprojects conducted by each Dream Team Leader and Principal is required for all items of equipment costing over $500, and the need for personnel, supplies, and other items. Provide the names of individuals whose salaries will be supported by the grant funds and justify the amount of support requested.

VI. **Biographical Information of the Dream Team Leader, Co-leader and Principals.** Do not exceed four (4) pages per individual. Submit the following biographical information for the Dream Team Leader, Co-leader, and Principals. Do not include information for Investigators, Collaborators, fellows or research assistants. Submission of NIH Biographical Sketches is acceptable.

A. **Education and Training.** Include all degrees awarded. List the year conferred, institution, and field of study. Also list postdoctoral training, residency programs, and internships; list title of position, mentor’s name, institution, and exact dates of training.

B. **Positions and Honors.** List in chronological order previous positions, concluding with your present position. State duration, title, and institution. List any honors.

C. **Publications.** Provide complete references, including titles for all peer reviewed publications. Begin each citation on a new line. If the number of publications is extensive, you may provide a partial listing; indicate total number of publications (excluding abstracts, non-peer reviewed articles, or book chapters).

VII. **Organizational Assurances.** The assurances/certifications are made and verified by the signature of the Institutional Official signing the application. Signatures from official representatives of each of the Dream Team Leader, Co-leader, and Principal’s Institutions certifying the Dream Team application will be required at time of submission. It is the responsibility of the Dream Team Leader and Institution to ensure that organizational assurances/certifications from all Dream Team Member Institutions are obtained. Proof of organizational assurances/certifications from all collaborating Institutions must be received before payments will be released. In addition, letters of endorsement from the Dean, Department Head, or Director of all institutions represented by the Team members, certifying contents of application package, written in English, will be required prior to payment.
VIII. Letters from Investigators and Collaborators. Should confirm the scope of the Investigators’ and Collaborators’ involvement in the proposed research.

IX. Project Milestones. The milestones will be used to define a timeline for the research activities that you propose to accomplish over the duration of your project. Reporting progress towards milestones will be incorporated into the semi-annual reporting requirements for the project if funded.

X. Appendices. Additional documents such as clinical trial preliminary data or summaries of clinical trial protocols may be included as an appendix. Figures, tables, and other references to information contained within the Proposal Narrative are not allowed. Publications are not allowed. References to publications must be made in the Proposal Narrative.

Uploading the attachments into your application
Once you have converted your attachment to PDF files, the next step is to upload the files to your online application:

- Make certain that the converted PDF files are closed on your computer;
- Open your application and go to the section for attaching files;
- Enter your own description of the file in the “Describe Attachment” field;
- Select the appropriate type of attachment from the drop-down list. NOTE: After selecting attachment type, the screen will show the allowable file types (e.g., PDF, .doc) that are allowed for that type of attachment;
- Click on the “Browse” button to select the file from your computer;
  - A ‘choose file’ dialog box opens for you to search for the template file on your computer’s hard disk or local area network.
  - Select the file and click “Open.”
  - The file location and name will display in the window adjacent to the Browse button.
- Click on the “Upload Attachment” button. You will get a confirmation message on your screen that the file was uploaded successfully. You will also see that your file is now listed in the Uploaded Attachment section of the screen. Two links are available in each row of an uploaded attachment: DEL and SHOW. “Del” allows you to delete the file, if necessary, and “Show” opens the uploaded file. It is strongly recommended that you open and review your uploaded file.

If, for any reason, you wish to modify the attached file, make the revisions to your original file on your computer (off-line), convert the file to PDF and use the same process above to attach the newly revised file. Delete any previously submitted versions of the file before submitting your application.

SUBMITTING COMPLETE APPLICATION

1. PI DATA SHEET. This is an automatically populated data sheet based on applicant’s proposalCENTRAL profile. Information for gender, race, and ethnicity must be provided to the AACR. If fields are not populated, go to Section 4, Applicant, and select the “Edit Professional Profile” tab in the center of the screen. The Applicant must then go to the column on the left hand side of the screen, select “4) Personal Data for Application,” and enter his or her race, gender, and ethnicity. This information is for demographic purposes only. The Joint Scientific Advisory Committee does not receive this information.
2. **VALIDATE.** Validate the application on proposalCENTRAL. This is an essential step. An application that has not been validated cannot be submitted. ‘Validate’ checks for required data and required attachments. You will not be able to submit if all the required data and attachments have not been provided.

3. **SUBMIT.** After the application has been validated the application must be submitted. The submit button will only appear after the document has been validated. Click the “SUBMIT” button. A confirmation email will be sent by proposalCENTRAL to confirm that the application was submitted. If you do not receive an email confirming the submission of your application, please contact proposalCENTRAL immediately.

4. **SIGNATURE PAGE(S) AND PRINT APPLICATION.** After successfully passing the validate check you are ready to print the signature pages and the attached PDF files. Use the second print button “Print Attached PDF Files.” Click this button to print the attached PDF files. Ensure that all documents are correct and complete.

**IMPORTANT:** A confirmation email will be sent once the proposal is submitted. If you do not receive this email and believe that you have submitted your proposal you should immediately contact proposalCENTRAL. It is the responsibility of the applicant to ensure the application was completed correctly, all required information is present, and that the proposal was officially submitted through proposalCENTRAL.

**CHANGES TO THE APPLICATION**

**Withdrawal of application:** The Dream Team Leader should advise the AACR’s SRGA promptly, in writing, should he/she decide to withdraw the application for any reason. The letter (or e-mail) should include the DTL’s name, the title of the proposal, and the reason for withdrawal.

**Change of address:** Notify the AACR’s SRGA in writing of any changes of address, e-mail or phone number for any Dream Team Member, following the submission of an application. Include your name and the proposal title.

**Change of institution:** If any Dream Team member changes institution, the Dream Team Leader should contact the AACR’s SRGA to determine whether your application can be reviewed.

**INQUIRIES**

Inquiries about the program guidelines, eligibility requirements, and application materials can be directed to the AACR’s SRGA at:

**United States**
E-mail: su2c@aacr.org
Phone: +1-267-765-1049

**United Kingdom**
